### **Summary**

As a fourth-year student dedicated to the IT field, I have been designing websites and web applications, doing what I love and am good at. I pursued my ambitions and developed a passion for online technology as a medium for expressing ideas and exchanging knowledge. There is still a lot to learn about software and the Internet, and I hope to be at the forefront of new development. I'm not afraid to break tradition and do things better than before.

### **Education**

2020 - 2024 in CCT College Dublin

Quality & Qualifications Ireland(QQI) - Bachelor of Science(Hons) in Computing & Information Technology

### **Coursework**

#### **Year 1**

Introduction to HCI, Computing Architecture, Time & Task Management, Object Oriented Approach, Discrete Mathematics for Computing, Operating System, Client-Side Programming, Project Skills, Networking Technologies

#### **Year 2**

Object Oriented Constructs, Server-Side Programming, Linear Algebra, Cloud Computing Fundamentals Wireless Networking, Databases:Approaches & Systems, Integrated Application Development, Research Skills, Business Information Systems, Network Services & Virtualisation, Cross Platform Development
